We, the undersigned, petition the Mayor and the Council to create a drainage improvement district to serve our properties.

We hereby expressly consent that the City of Grand Island, for the purpose of surveying and construction of such drainage improvement district, may pass along and across the immediate area of our property, and we grant the City of Grand Island, insofar as is reasonably necessary, the right to place soil, dirt and sand necessarily excavated in such construction upon the parts of our land abutting upon such construction for and during the period of construction.

We hereby severally waive all claims for damages reasonably resulting from construction of such drainage improvement district and from damage or destruction to trees or shrubbery.

We petition creation of a drainage improvement district to serve the following properties and agree that the cost of construction of this district will be assessed against the abutting properties.
