Additional comments during the draft report comment period.

- Im glad I decided to do this survey today when 2 days after a blizzard I still got stuck on the roads because this city has hands down the worst snow removal I have ever seen of anywhere I have EVER lived! Its appalling! Im disgusted with the whole city right now. And its all more money more money more money tax tax tax and they cant even clean up after a snowfall. I want to move.
- I would like to see a better public transportation system in the city.
- PRETTY MUCH THIS PROJECT IS A WASTE OF TAXPAYER RESOURSES. THOSE IN CHARGE ARE
 JUSTIFYING THE EXISTENCE OF THEIR JOB BY MAKING UP UNECCESSARY PROJECTS. JOURNEY
 2040 IS A JOKE.
- The city needs to look at widening 13th St from Deirs clear to Engleman Rd. There are no sidewalks for kids to walk in and there should be some sort of pedestrian bridge over North Rd and 13th St for school kids walking to the eastern subdivisions. The traffic along 13 due to Westridge Engleman schools and Third City Church is ridiculous.
- The lack of public transportation is a huge issue for many in our community and I dont see them at meetings for Journey2040. Im concerned were missing out on their voices.
- This town sucks to get around in. The biggest inconvenience for me is the trains. Also lets finish the quiet horns things for the train. you guys did part of the city but not the rest.
- Please dont raise the sales tax anymore. We already have an additional sales tax that has paid for the State Fair. Where will this money be allocated to now? 281 is a major corridor bringing down semis from the north to meet up with the interstate. Currently it is the only major link to the interstate. An east bypass system is an excellent idea. It would aid with the freight travel as well as the volume of traffic in the industrial areas on the east side of town. Please make sure you include development ideas to create a bypass not only over the UP rails but also Burlington rails. A nice seamless flow to the east similar to the one that currently exists to the west would open up more traffic flow around the whole city. This could also aid in response times for police and fire/rescue personnel.
- It would be beneficial to add more turn options off of Highway 281 including an access road and turn lane into Conestoga Mall between 13th Street and State Street.
- INCREASE LANES ON NORTH ROAD; PUT IN STOP LIGHTS ON NORTH ROAD VS STOP SIGNS; MAKE SURE THIS ROAD GETS CLEARED WHEN IT SNOWS; POSSIBLY WIDEN BOTH 281 & CAPITAL ROADS
- Please continue to remember the community identified need for better transit options as well as those who need more safe options for walking and cycling.
- Expand the bike trails and have a bridge for bikes and pedestrians to get over hwy 281.
- I think more options for public transportation needs to be addressed. Grand Island is getting big enough for a bus system that continually picks up and drops off at regular locations thru out the city. If not a bussing system we should try to get a business like Uber or sometime of larger Taxi company to come to Grand Island. GI Public Transportation is helpful but is not a long term solution for the entire city you have to call at least 24 hrs ahead of needing a ride. People dont always know that far in advance that they are going to need a ride.
- I would like to see more emphasis placed on walking and biking paths especially those that connect and take people to destinations they want and need to go (schools stores parks grocery stores etc.)
- GET RID OF THE HIRING TEMP AGENCYES.
- The question on modal and connectivity needs to be written with more description. I am an engineer and I didnt know what it was asking.

- NA
- Need light signal at HWY 281 and Wildwood!! A number of trucks heavy equipment and autos are accessing 281 at this intersection. Encourage/work with the State Dept of Roads to improve Hwy 30 west of 281 to outside of the city limits (initially....and then onto Alda); this would may include wider roadway and shoulders more turning lanes improved lighting (especially at intersections) additional stacking for trucks and autos waiting at RR crossings. Also City needs to be improving/widening (with shoulders and turn lanes) North Road from Hwy 30 to Hwy 2 (especially from Old Potash to Capital Ave). Future....Divided highway from GI to Central City and GI to Wood River.
- Expanded bike/walking trails
- Improving the North Road corridor seems essential in the near future. Widening to 3 or even 5 lanes from Hwy 2 through to Hwy 30 seems necessary. Also placing stop lights or even round abouts at Capital Ave State St. 13th St. Faidley Ave. and Old Potash would be essential as well for traffice flow and safety.
- I grew up in Grand Island and both my parents worked so I had to ride my bike or walk to the majority of my activities. Im sure there are a lot of kids in our community that rely on riding bikes for transportation and there arent very many safe routes to get around Grand Island. Now that I am an adult I dont have to walk and bike places but I do for exercise and the lack of sidewalks and safe routes concerns me. Ive had quite a few close calls while walking my dog in my neighborhood because I have to walk down the middle of the street or pick a side and hope Im visible. Its even worse when it snows because the only option is to walk down the middle of a street if there arent sidewalks.
- Need a truck route around the city our local streets are not very good for trucks. there is only
 one N S route is 281 There are no complete N_S roads in this town. Half of the city follows the
 UPRR the west part of town follows a normal town layout. Very hard for new comers to find
 their way thru Grand Island. There should have been a 1/4 mile line of trees planted between
 the two parts of town one side called Grand and the other side ISLAND
- Lets learn from mistakes with other road projects and make sure the contractors that are awarded the jobs can actually fulfill them without having major downtime or having to redo the work. For instance the project on Webb Road that went way over expected finish time or the work on repaving the road by 1st and Eddy which had to be torn up and redone. Contractors who cannot perform to standard should not be awarded jobs.
- As the development of the 281 corridor we need to expand and widen the HWY 34 west from 281 to at least North Road.
- If you build a East Bypass I would strongly urge you not to consider Stuhr Road. I think it would be a mistake to make Stuhr Road the East Bypass as it practically goes through the State Fair. With over flow parking on the east side of the street and the State Fair on the west I feel it wouldnt make a good truck route. Shady Bend makes for a much better East Truck Bypass than does Stuhr. Hopefully between now and 2040 the State Fair will grow even more possible taking in more ground to the East or even North East. Its only 11 days but anything that we do to detract from the Fair could have a rippling effect. Might be a good idea to explore ways to make the East Parking Lot for the State Fair much more accessible to the Fair Grounds. A pedestrian crossing under or over Stuhr could make attending the State Fair a lot more pleasurable. Sidewalks along Fonner Park Road to the North and East of the Fair Grounds could also be a big improvement. Speed limits on streets need to be studied and made more uniform. Congested Anna Street has a Speed Limit of 30 while wide open Harrison street has a Speed Limit of 25. South Blaine (South of Stolly) is very similar to Harrison but has a Speed

Limit of 35. Garland Street and 34 needs to have a left turn lane implemented on highway 34. When your waiting to turn left onto Garland from 34 there is often a flood of traffic that passes on the shoulder to the right. Wortman Drive needs to have two large Do NOT Enter signs posted for traffic headed east on highway 34 that attempt to turn left onto Wortman. There are two NO LEFT TURN signs posted there but traffic ignores both signs on a regular basis. I feel two DO NOT ENTER signs might be more eye catching as a motorist attempts to turn.

- Bike lanes need to be made throughout the city to make it safer for cyclists to commute.
- I find it interesting that there is a string of street lights all the way from I-80 to Stolly Park road where they stop. Then there is only a small scattering of street lights north of Stolly at intersections. Ive seen a number of north bound cars with out of state license plates make a U turn on 281 at Stolly and head back to the Interstate. If your not from here when you see the street lights stop you think that your headed out of town. All the big lights and signs of businesses arent visible from 281 and Stolly. The string of street lights needs to continue on north of stolly up over the overpass all the way to Capital Ave. Currently the only thing lighting 281 between intersections is light that spills out from business parking lots.
- The 281 corridor/Webb Rd congestion desperately needs to be addressed; peak traffic times are almost to point of danger for drivers. Traffic lights/turning arrows-all are needing change to accommodate increasing numbers of cars. I have done my own independent studies in cities like Columbus Elkhorn Omaha Lincoln-the turning lanes allow at least 5-6 cars thru on green; here on 281 & Webb maybe 2 cars turn before yellow appears & quickly after that red. Drivers are going thru on the red they are so frustrated. No wonder traffic accidents are a daily occurrence. When you drive into G. I. from the east and begin the one-way on 3rd street whoever timed the lights did a perfect job as if you maintain your speed on the first green light you can continue with green all the way to Eddy St. Why cant a better job be done on 281 and Webb Rd? The city of G.I. wanted so desperately to reach 50000 population and we have it but they arent keeping up with the demands that it brings. Stolley Park is another area of increased activity and will stay that way because of direct access to State Fair grounds. I inquired about a pothole hotline--wouldnt be a bad idea would it? I havent seen any crews out filling the numerous ones popping up-are we just that limited with workers or again just arent meeting the everyday needs of the taxpayers?
- Trains are an ongoing issue with respect to the efficient and safe flow of North/South traffic through Grand Island. As the train length/frequency have increased over the years so have the impact on the city. Visitors considering relocating homes and/or businesses here certainly must notice the train issue as well as other quality-of-life transportation issues that Grand Island suffers from such as the general lack of safe and efficient bicycling/pedestrian routes. This long-term plan is an opportunity to take a serious look at the Citys transportation issues and how those issues might very well be adversely affecting the prosperity and growth of the community.
- get rid of the cow lot at engleman and 13th street
- I feel some type of improved bus system is needed for people that need transportation to and from work at various hours throughout the day and there is a need to promote the system we have now as there is the impression it is a handi-bus service.
- Improve the decision making process when it comes to combined projects. Example: New school and traffic control when a new school is constructed a traffic control / streets upgrade plan should be part of the design build project. After listening and reading about a similar

- project a plan to manage traffic and pedestrian control still is not complete this is a significant safety concern.
- Its pointless for this survey. The questions are worded in such a way as to garner the responses YOU want. Not what the citizens of Grand Island want.
- Public Transportation seems to be a HUGE problem as well. This needs to be improved upon DRASTICALLY. I hope this happens before year 2040!! If you have ever taken a CAB anywhere
 - it is a JOKE!!!!! Sometimes you are waiting for hours - even after a SCHEDULED pickup. The cab drivers are RUDE. WE NEED THIS RESOLVED ASAP.
- I think there is a lot of push for a bus transit system in our community. Before we make the investment into such a venture I would like to see what are the profit and sustainability of one is. I know several cities that are on the losing end and feed money to keep a bus system going that is hardly used. The records of profit and cost of a bus transit system in cities our size should be shown publicly before planning is done on this. Most in my neighborhood agree that the supposed need is higher then what he actual use would be costing all of us more money in the long run.
- Concerned about Stolley park road and street by cpi with the new elementary school going up. Along with four way stops on north road.
- If bikes become a priority (which I hope they do) I think its important to plan to link up the two bike paths or extend the one west of town south. I desire to ride my bike to work. I live in west GI and work at CCC. There is no way for me to ride my bike to work.
