Preconstruction Open House Meeting

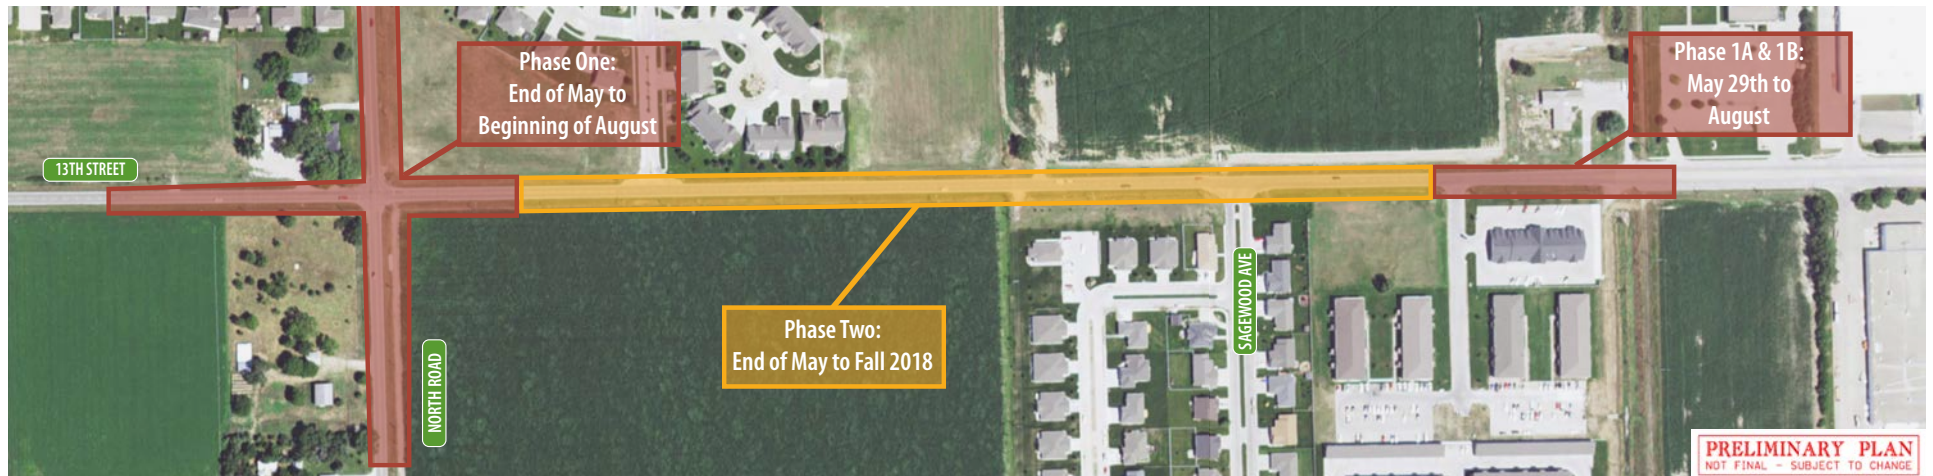

Monday, May 7, 2018 | Third City Christian Church, 4100 W 13th Street, Grand Island, Nebraska

The 13th Street project includes reconstruction from North Road to Moore's Creek. The project will consist of removal of the existing 24-foot wide asphalt roadway and construct a concrete curb and gutter, 3-lane, 39-foot wide roadway section. A roundabout will be constructed at the intersection of 13th Street and North Road. The project will also include stormsewer construction and sidewalk improvements.

Closure from North Road and the 13th Street intersection to Cedar Ridge Court is scheduled to begin on May 29th and will remain closed until early August. Access to Cedar Ridge Court will be maintained during construction through two phases.

Phase 1A will move both lanes of traffic onto the westbound lane on 13th street and Phase 1B will move both lanes of traffic onto the eastbound lane.

After the roundabout and both construction phases near Cedar Ridge Court are complete, the new roundabout intersection excluding Phase 2 will be open to traffic. Construction will continue until completion of Phase 2 in Fall 2018.
