Exceptions to specifications, pages _____

The undersigned bidder agrees to furnish the required performance and payment bond and to enter into a contract within fifteen (15) days after acceptance of this Bid, and further agrees to complete all work covered by the foregoing bid in accordance with specified requirements. **No work shall commence until the Certificate of Insurance and bonds (when required) are approved by the City and the contract is executed.**

The proposed work can commence after the contract is signed and the required bond is approved.

Completion: All contract work shall be completed and accepted by **October 14, 2022**.

The Contractor will be allowed 75 continuous calendar days for full closure of Eddy Street. Any full closure days beyond that will be considered impediment of traffic.

Eddy Street shall not have any closures during the Harvest of Harmony Parade.

The following are stipulations for roadway closures to the underpass to complete the work within that closure period, see plans for additional information. All other work shown in the plans that may be completed under partial or full closure shall be completed in an order as determined by Contractor's operations.

Southbound Closure

The two southbound lanes and southbound underpass sidewalk will be closed and both directions of traffic to be maintained in the northbound lanes. All work required on the west underpass wall, abutments, and curbs shall be completed under this closure.

Northbound Closure

The two northbound lanes and northbound underpass sidewalk will be closed and both directions of traffic to be maintained in the southbound lanes. All work required on the east underpass wall, abutments, and curbs shall be completed under this closure.

Full Closure

The Contractor is responsible for determining minimum work zone width requirements for the North Front St Bridge slab edge replacement and deck repairs. If clear width for maintenance of traffic allows only one lane the Contractor shall accommodate both directions accordingly.

Liquidated Damages: It is understood and agreed that time is the essence of the contract. Should the Contractor fail to perform the work within the period of time and/or calendar day duration stipulated in Special Provision 1.09 for the final completion and in this Contract Agreement, the Contractor shall pay to the City, as liquidated damages and not as a penalty, **\$350.00 per calendar day** if traffic is not impeded, and an *additional \$700.00 per calendar day* if traffic is impeded unless extensions of time granted by the City specifically provide for the waiving of liquidated damages.

The City shall have the right to deduct the liquidated damages from any moneys in its hands, otherwise due, or to become due, to the Contractor, or to sue for and recover compensation for damages for non-performance of this contract within the time stipulated.

Enclosed herewith is the required bid guarantee in the amount of
