**Rimfire Pistol and/or Rimfire Rifle and/or Centerfire Pistol
Saturdays at 1:00 PM**

Please register on Practiscore <https://practiscore.com/clubs/gp16> prior to 12:30 day of match. Practiscore is free to everyone. If for some reason you prefer to register at the club house there is an extra \$5.00 fee per match. If you need assistance please contact the park at 308-385-5048.

2023 Dates: November 25th, December 9th & 30th

2024 Dates: January 6th & 20th, February 3rd & 17th, March 2nd

New shooters welcome! Steel Challenge matches are a good way for new shooters to get started. And a great way to practice and have fun even for experienced shooters. Divisions for center fire pistol, rimfire pistol and rimfire rifle. Four to six stages shot each week. Each stage has 5 steel targets ranging from 10" round steel plates to 18" x 24" steel plates placed from 7 to 35 yards away. Hit all five in the shortest time you can, your time is your score. No limit on the number of shots. Try five times at each stage and your best 4 times count.

\$22 each week for each gun. 150 max rounds per gun per week required if you don't have a single miss. Recommend bringing at least 200 rounds. We will shoot four to six stages per event depending on the wind and the temperature. Bring enough magazines that you do not need to reload magazines during your 5 strings at each individual stage (we will make exceptions for new shooters with limited magazines). Holster that covers trigger required for center fire pistols and revolvers. Case or bag required for rimfire pistol or rifle. Empty chamber indicators required for rimfire and are available at the office for \$1.00 each at check-in.

No commitment. Shoot one week, some weeks or every week. We will shoot only in good winter weather. We define that as a "feels like" temperature of at least 30 degrees at shoot time. Check the www.weather.com website hourly forecast to see if the shoot is likely to be held.

If it looks "iffy" contact Mason Williams at 308-380-1454
